3 CAT (CONT'D)

(to Ollie)
So literal.

4 OLLIE

Can still barely hear him.

5 CAT

HANC, set audio volume to maximum.

6 HANC (V.O.)

(SHRIEKINGLY LOUD)
AUDIO VOLUME TO MAXIMUM.

WAY too loud - Cat pulls the earpiece out with a wince of pain, while Ollie flinches away.

After a beat, she puts the earpiece back in.

7 CAT

HANC, reset audio volume.

8 HANC (V.O.)

Resetting.

9 OLLIE

Okay, so he's painfully literal.
Try being extremely precise with
your questions.

Cat gives this some thought, then:

10 CAT

HANC, did you give the photos and
texts from my phone to Meadow?

11 HANC (V.O.)

Yes.

Cat's eyes widen - her nod relays the answer to Ollie.

12 OLLIE

That was simple.

13 CAT

(unconvinced)
Too simple. I don't know...
(then)
Is that what you were built for,
HANC?

14 HANC (V.O.)

*I've been designed to help improve
the human experience.*

Ollie watches Cat's puzzled reaction to what she just heard.

15 OLLIE

Key question is, can he be trusted?
